

EDUCARE INTERNATIONAL SCHOOL

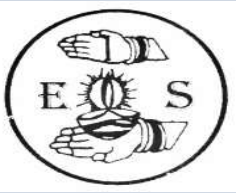

Affiliated to CBSE (New Delhi)

Affiliation No:- 2430276

School Code:- 15915

Ratanpur, Singur, Hooghly - 712409

From the Chairperson

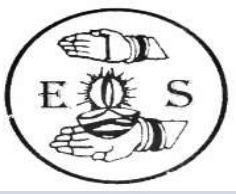

When we first started Educare in 2011, the idea of providing quality “Education with Care” was one of our topmost priorities. Over the years, we have tried to uphold this promise to our best of ability. Our primary goal is to make a student worthy of facing all kinds of challenges in the practical world, be it academic, physical, mental or psychological.

From our journey with less than fifty students, we are now affiliated to CBSE for Senior Secondary category i.e. (10+2). Not only that, we are currently conducting several prestigious national-level examinations as well as many competitive test examinations right in our school campus. Growth is, as they say, a continuous process and we are just starting to rise on the curve.

I thank all my able teachers, my diligent support staff, my beloved students and their respected guardians. May God bless you all as we continue flourishing in every way.

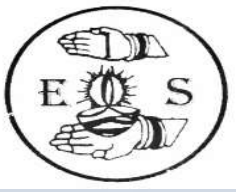

Introducing Educare – Education with Care

- Taking care of young minds is our top priority. Educare is dedicated towards making the future-makers of our nation.
- Our sole goal is to provide a holistic development of each child; emotionally, mentally, academically and physically.
- We have taken a vow to contribute something extraordinary to the society, through the innovative ideas of our beloved students.

Best Practices in School

- Value-based Education
- Smart Class
- Abacus Learning Methodology
- Parent-Teacher Interaction
- Awareness Campaigns
- Student Activities

Empathy

- Educare is empathetic towards our society and the problem it faces everyday. We believe in imparting this feeling among the students so that they can better understand and feel for the daily struggles of a common man.
- We have organized a donation camp to enrich our students about empathy and the pleasure of helping others.

Compassion

- Plantation Program – We are grateful for the life gifted by our Planet and take regular efforts to remind us of this by spreading more green around.
- Birthday Plantation Program – On their birthdays, our students are required to plant one sapling in the school campus.
- World Environment Awareness – Just plantation programs alone cannot fully tackle the current environmental crisis. We regularly organize various Awareness Programs as well as give our students projects that reflect our ongoing efforts to become Greener.

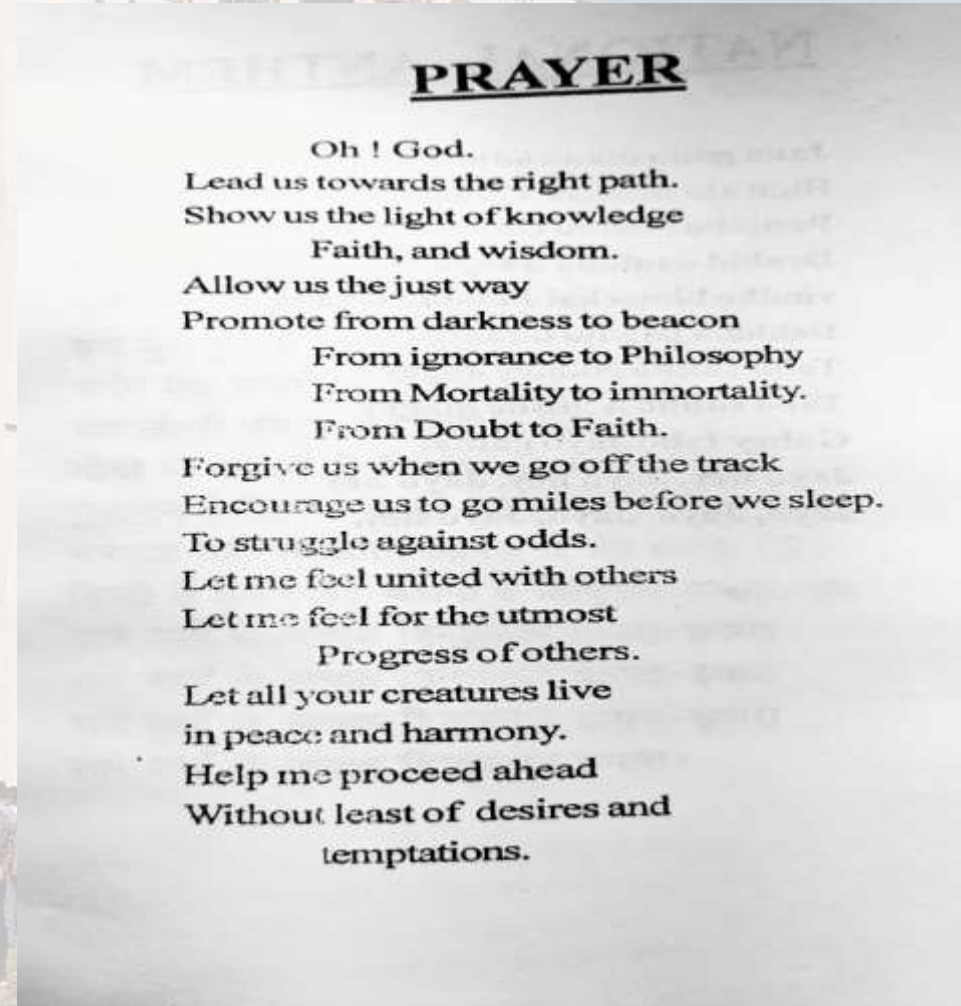

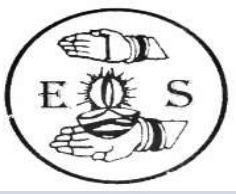

Gratitude & Optimism

- Prayer – The School Prayer speaks of humility, gratitude and optimism.
- Assembly – Through the Assembly, discipline and togetherness are imparted in the young minds.
- Om Chanting – Before starting our prayer each day, students chant the ancient Om sound in order to bring positivity in their minds.

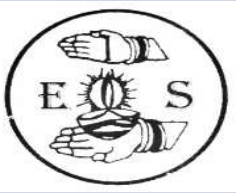

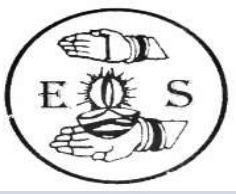

Self-discipline & Perseverance

- Karate – Educare provides weekly Karate lessons as advised by CBSE to enhance the self-defense
- Yoga – The ancient practice of Yoga helps to keep the young minds focused and flexible.

Yoga Day Celebration

Patriotism & Our Culture

- Independence Day is not meant to celebrate freedom from past only but to remind us of our current duties towards the nation. We encourage our students to be faithful towards their country and countrymen.
- Rabindra Jayanti is observed to commemorate the birth anniversary of the Nobel Laureate, Rabindranath Tagore. As a proud Bengali, we organize this ceremony on regular occasions

Independence Day – Go As You Like

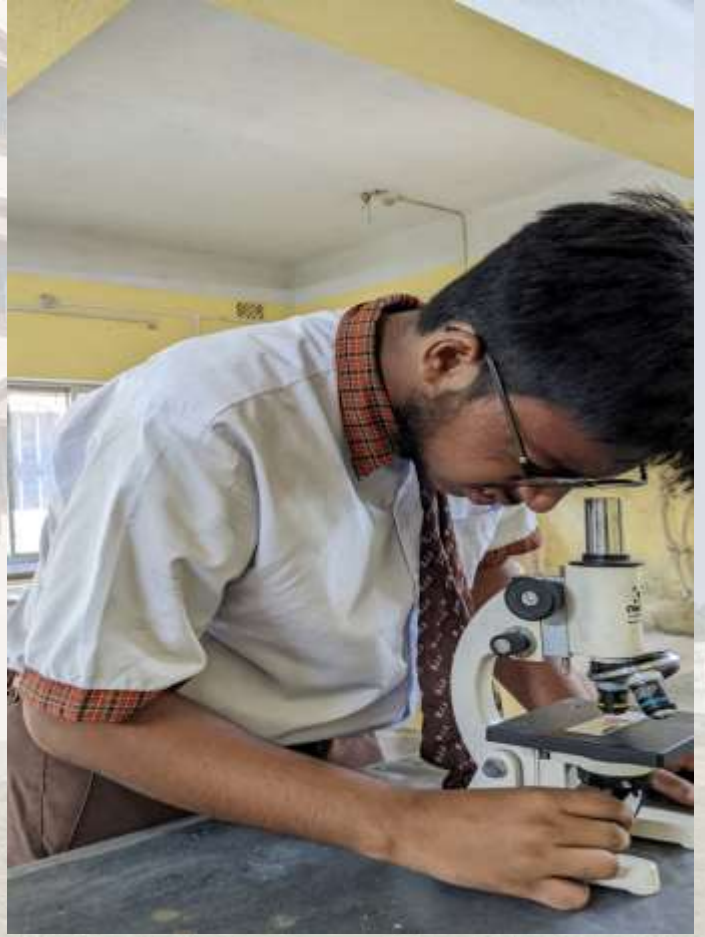

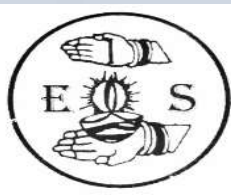

Cooperation

- Having the state-of-the-art equipments and facilities is not enough to learn all about laboratories. Cooperation between students and also between instructor and students is an absolute must.
- Our Library not only boasts of huge collection of books and magazines but active help among all the attendees can be observed in that a student fetches his/her required book without always disturbing the librarian. Also we have an immense online depository of knowledge.
- Games help in building the cooperative abilities in the students. Our teachers also participate with the students in such activities, building friendly rapport and a healthy connection.

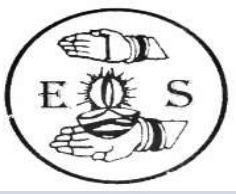

Laboratory

Teachers v/s Students Games

Smart Class

- Audio visual system – We have Audio visual system in our classrooms to further aid our teachers to impart the best of education.
- Interactive sessions – What we learn in books and in class are better absorbed through proper and relevant interactive sessions where the students freely ask their teachers about their doubts and better clarify their concepts.
- Abacus – Mathematical logic is very important in building the foundation of a student's aptitude. That's why we provide Abacus Training Sessions regularly, every Friday for the junior students.

Awareness Campaigns

- Drug awareness – Drug is one of the biggest vices our country is facing right now. Our teachers are all certified Drug Warriors, preaching about the harmful effects of drug abuse with chivalrous zeal.
- Cleanliness – Cleanliness is next to Godliness and we should try to keep our environment clean and green. We are proud that we give one cleanliness period in each class every week in their usual class routines.
- Good touch, bad touch – Students can become free with the teachers as well as their friends, when they know about the difference between good touch and bad touch. Our teachers help them understand this so that they can cope with the society in a much better and efficient way.
- Eco – Rakhi – By motivating our students to make eco-friendly Rakhis, Educare celebrates the festival of brotherhood with a green under-thought underneath.

Rakhi Making Competition

Eco- Friendly

Nurturing Creativity

- Essay Writing
- Art & Craft
- Dance
- Drawing
- Music Lessons
- Sandwich
- No Gas Cooking
- Bouquet Making
- Diwali Fair
- Science Exhibition
- Public Art
- Land Art
- Talent Hunt
- Kitchen Garden

“Music is the prayer the heart sings”

Science Exhibition

Through guided Science Exhibitions and Fairs from time to time, our students get interesting ideas to implement in their logical thinking process.

Land Art

Everything is a waste until you know how to use it. Creativity helps us to enhance and encapsulate our feelings. Our students learn about using Mother Nature as the purest form of art.

Public Art

Public implies direct message from society and Art is the manifestation of our emotional state in its totality.

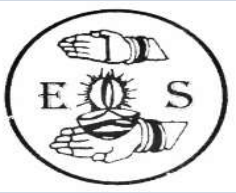

Mental Assessment Test

To understand the current state of learning and comprehension, we frequently conduct Mental Assessment Tests.

Talent Hunt

The exceptional educators of our school assumes the role of experienced divers who seek and find pearls from inside the oysters. Our students are like little gems of talent, waiting to shine in the real world. Educare aids them in the noble endeavor to find their hidden talents.

Educational Tour

- Kolkata's 116-year old Alipore jail had recently been turned into a public museum. We took our students on a tour in the venue. We had seen the original cells where our great Indian freedom fighters such as Netaji Subhash Chandra Bose, Deshbandhu Chittaranjan Das, Jatindra Mohan Sengupta and countless others. Some of us became really emotional by seeing the gallows, the inhuman treatment by the British jailers and by being able to touch the history.

“Freedom is not given, it is taken.”
~ Netaji

“History teaches us that man learns nothing from history.”

~ Hegel

Conclusion

- As is evident from the presentation so far, Educare International School strives for holistic development of learners, foundational literacy and numeracy, early childhood care and education and equitable and inclusive education.
- Holistic development helps in overall growth of a child in all aspects of his / her life. The foundational literacy and numeracy helps to cope up with the rising demands of today's society. Mostly, childhood care and education provided by us in an inclusive manner is instrumental in bringing the highlights of the NEP 2020 into our curriculum.

Thank you...!

Have a great day!
